

ENVIRONMENTAL POLICY OF MARIACHI OY

In delivering its products and services according to agreement, Mariachi Oy follows best practices and ensures the lowest possible waste of resources. Over time, scope for improvement may be found in even the best practices; we commit ourselves to a principle of continuous improvement. Our practices are written and kept updated in the TK4 Operations Handbook.

With this Environmental Policy we commit to abiding by the relevant legislation and rules. We also abide by other agreements and liabilities concerning the company.

Our Environmental Policy emphasizes the following:

Taking note of sustainable development

We actively offer our customers opportunities to produce lighter, more durable and energy saving products and to adopt the respective procedures. We follow the realization of targets set annually.

Management of environmental risks related to our own operations

We take proper care of the waste that results from our activities. We prepare ourselves for an emergency situation and know what actions to take.

Pasi Hatakka
Managing director
